NIT3274 Small IT Business — Interns Store | Screen-by-screen feature spec

Tags. **MUST** mandatory for the assignment/rubric **REAL** realistic — buildable in WordPress/WooCommerce now

ASPIR aspirational — full LinkedIn/SEEK-level, future scope.

Purple boxes = what appears when you click into something (a sub-screen or state).

How Your Part Connects to the Whole Site

Interns Store is a two-sided marketplace: students find internships (free) and employers pay to post them (subscriptions & listing fees). The site is divided across four members so every page and feature has one clear owner.

Member	Owns
Manula (You) — Design & Front-of-House	Home, For Students, For Employers, About, Blog + overall design/UX
Member 2 — Internships & Search	Browse, internship detail page, apply flow, company profile
Member 3 — Accounts & E-commerce	Student & employer dashboards, listing builder, AI assistant, cart→checkout→invoice
Member 4 — Marketing, Compliance & Presentation	Marketing/SEO, social media, Contact, footer/compliance, QA, PowerPoint, report

Your role is the first impression. The pages you own are what every visitor and the demo audience sees first, so they must look polished and on-brand. Your pages link OUT to: the internship listings (Member 2), the Pricing/Plans & sign-up (Member 3), and they carry the marketing blocks & footer that Member 4 supplies.

Your deliverable: build these pages in WordPress to a high design standard, and define the look/feel for the whole site. Mark which REAL/ASPIR features you'll include.
